LAND ECONOMICS

a quarterly Journal of

PLANNING, HOUSING & PUBLIC UTILITIES

VOLUME XLIII

February 1967-November 1967

LEADING ARTICLES

ADAMS, DALE W. Minifundia in Agrarian Reform: A Colombian Example (Sam Schulman, co-author) 274–283

ANDERSON, RAYMOND L. Windfall Gains From Transfer of Water Allotments Within the Colorado-Big Thompson Project ..265–273

BENISHAY, HASKEL. Tax Burden Ratios in Transportation (Gilbert R. Whitaker, Jr., co-author) 44–55

BIRD, RICHARD M. Financing Urbanization in Developing Countries by Benefit Taxation: Case Study of Columbia (William G. Rhoads, co-author) 403–412

BRAZER, MARJORIE CAHN. Economic and Social Disparities Between Central Cities and Their Suburbs 294–302

BREGER, G. E. Concept and Causes of Urban Blight, The 369–376

BROOKS, DAVID B. Some Economic Aspects of Urban Sedimentation (Robert K. Davis, co-author) 312–319

CUMBERLAND, JOHN H. Regional Economic Development Objectives and Subsidization of Local Industry (Frits Van Beek, co-author) 253–264

DAVIS, ROBERT K. Some Economic Aspects of Urban Sedimentation (David B. Brooks, co-author) 312–319

FALK, L. H. Benefit-Cost Analysis of Local Water Supply, A (W. J. Stober, co-author) 328–335

GRUEN, CLAUDE. Behavioral Approach to Determining Optimum Location for the Retail Firm, A (Nina J. Gruen, co-author) ..320–327

GRUEN, NINA J. Behavioral Approach to Determining Optimum Location for the Retail Firm, A (Claude Gruen, co-author) ..320–327

HALE, CARL W. Mechanism of the Spread Effect in Regional Development, The 434–445

HANSEN, NILES M. Toward a New Approach in Regional Economic Policy 377–383

HICKS, W. WHITNEY. Agricultural Development in Northern Mexico, 1940–1960 393–402

HOOVER, EDGAR M. Some Programmed Models of Industry Location 303–311

HULTMAN, CHARLES W. Exports and Economic Growth: A Survey 148–157

JENSEN, JAMES E. Crude Oil: Capacity, Supply Schedule, and Imports Policy 384–392

KEE, WOO SIK. Suburban Population Growth and Its Implications for Core City Finance 202–211

LAIRD, WILLIAM E. Neglected Aspects of Industrial Subsidy (James R. Rhinehart, co-author) 25–31

LOUGHLIN, JAMES C. Case Against Dual Pricing in Southern Louisiana, The 56–64

NORDLING, CARL O. Origin of a Depression .. 65–70

NOURSE, HUGH O. Effect of Air Pollution on House Values, The 181–189

RHOADS, WILLIAM G. Financing Urbanization in Developing Countries by Benefit Taxation: Case Study of Columbia (Richard M. Bird, co-author) 403–412

RICHMAN, RAYMOND L. Incidence of Urban Real Estate Taxes Under Conditions of Static and Dynamic Equilibrium, The 172–180

RINEHART, JAMES R. Neglected Aspects of Industrial Subsidy (William E. Laird, co-author) 25–31

ROBINSON, WARREN C. Simple Economics of Public Outdoor Recreation, The 71–83

ROSE, WARREN. Catalyst of An Economy: The Houston Ship Channel 32–43

SAMUELS, WARREN J. Edwin E. Witte's Concept of the Role of Government in the Economy 131–147

SAUTER, JOHN V. Financing of Highway Maintenance, The 413–420

SCHULMAN, SAM. Minifundia in Agrarian Reform: A Colombian Example (Dale W. Adams, co-author) 274–283

SHENKEL, WILLIAM L. Self-Help Housing in the United States 190–201

SIGAL, NAN MARKEL. Unchanging Area in Transition, The 284–293

STEWART, JR., CHARLES T. Regional Allocation of Public Funds for Economic Development 421–433

STOBER, W. J. Benefit-Cost Analysis of Local Water Supply, A (L. H. Falk, co-author) ..328–335

SUSSNA, STEVEN. Bulk Control and Zoning: The New York City Experience 158–171

VAN BEEK, FRITS. Regional Economic Development Objectives and Subsidization of Local Industry (John H. Cumberland, co-author) 253–264

WHITAKER, JR., GILBERT R. Tax Burden Ratios in Transportation (Haskel Benishay, co-author) 44–55
WINSTON, OLIVER C. Urbanization Pattern for the United States: Some Considerations for the Decentralization of Excellence, An 1–9
WINTHROP, HENRY. Modern Proposals for the Physical Decentralization of Community 10–24

REPORTS AND COMMENTS

BAIN, TREVOR. Industry Relocation and Restrictive Work Practices: The Flat Glass Industry 96–100
BONE, ROBERT M. Regional Planning and Economic Regionalization in the Soviet Union 347–354
BRAY, JAMES D. Profit Margins in Chilean Agriculture: A Rejoinder 250–252
BREWER, DURWARD. Conflicts Within Recreation: An Emerging Problem in the Allocation of Water and Investment Funds (John A. Kuehn, co-author) 456–461
BROWN, KEITH C. Distribution of Louisiana Outer Continental Shelf Lease Bids, The ..354–357
CASPARIS, JOHN. Metropolitan Retail Structure and Its Relation to Population 212–218
CURTIS, THOMAS D. Employment and Land Reform in a Labor-Surplus Economy: A Case Study of Puerto Rico 451–456
EMERSON, HUGH N. Small Telephone Companies in Pennsylvania 120–123
FLEISCHMANN, EDWIN. New England Power Economics: A Critique 123–126
GREER, THOMAS V. Study of the Length Specified in Gas Producers' Interstate Sales Contracts, A 91–95
HAVENS, A. EUGENE. Logic of Collective Action: A Review Essay, The (W. Keith Warner, co-author) 446–450
HENDON, WILLIAM S. Land Values Adjacent to an Urban Neighborhood Park (James W. Kitchen, co-author) 357–360
IRWIN, MANLEY R. Regulatory Status of the Computer Utility, The 223–227
KITCHEN, JAMES W. Land Values Adjacent to an Urban Neighborhood Park (William S. Hendon, co-author) 357–360
KUEHN, JOHN A. Conflicts Within Recreation: An Emerging Problem in the Allocation of Water and Investment Funds (Durward Brewer, co-author) 456–461

WINGER, ALAN R. Inter-Area Variations in Vacancy Rates 84–90

SUBJECT MATTER

A

Agriculture
see Chile; Colombia; Economic theory; Mexico
Appraisal
see Benefit taxation; Condemnation; Property damage awards; Taxation

B

Benefit-cost analysis
see Benefit taxation; Oil industry; Water
Benefit taxation
analysis of financing urbanization: Colombia
earmarking of revenues 411
relation to other taxes on property 411
theoretical appraisal 405
Blighted areas
unchanging area in transition: a case study
alternate concept proposal 292
concentric-zone areas (Burgess theory) 285
decline trend 290
see also Central cities
Bulk control and zoning: New York City 158–171
see also Central Business District; Central cities; Urbanization

Burgess theory
see Blighted areas

C

Central Business District
re-assessment of zone formulation theory
distribution and composition of population 212
retail shopping district 213
suburbanization of retailing 213
see also Blighted areas, Central cities
Central cities
similarities versus differences
economic and social disparities 294
Standard Metropolitan Statistical Areas coded 297
suburban areas compared 295
validity of the stereotypes tested 294
Chile
profit margins in agriculture; a critique ..243–252
City planning
see Central Business District; Housing market; Land use; Location patterns; Real estate; Taxation and growth pattern: New York City; Transportation; Zoning
Colombia
example of minifundia in agrarian reform
description of types 274–276
minifundia and large units 280
mixed dependent minifundia 279
remedial techniques 280
see also Benefit taxation
Colorado - Big Thompson project
windfall gains from water allotments transfer
argument for policy 270
efficiency gains from transfers 269
recapture of windfall gains argument 267
sale of water rights and governmental aids ..265
Computer utility
the case for regulation
effect on other utilities 221
evaluation of policy alternatives 224
Federal Communications Commission 223
informational privacy problem 225
Concentric zone theory of urban growth
see Blighted areas; Urban research
Condemnation
inverse damage awards 346

D

Dual pricing
analysis of Federal Power Commission order
administrative problems 60
directionality and elasticity of supply 58
feasibility as applied to South Louisiana ..56–64
pure and quasi-rents 57
theoretical considerations 59
see also Economic theory; Taxation theory

E

Economic development
regional objectives and local industry subsidization
arguments against subsidy by government 254
basic objectives of regional development 259
quality-of-environment factor 262
Swedish experience 258
see also Benefit taxation; Land reform; Mexico
Economic growth
foreign trade: central role
consumption effect 153
export base concept 151
international trade theory 152
leading sector and stage approach 150
nature of export models 148
underdeveloped countries role 154
see also Mexico
Economic theory
role of government concept
changing substance of rights and law 139
institutional approach analysis 137
knowledge and social policy 132
pluralism theory 141
regulatory function of government 136
see also Logic of collective action

F

Federal Communications Commission 223
Federal Home Loan Bank, San Francisco 85
Federal Power Commission
see Dual pricing; Institutional economics; Interstate gas industry; New England

H

Highways
financing of maintenance
federal responsibility 416
misallocation 417
possible adverse effects 417
source of funds 414
uniform accounting 419
Housing and Urban Development Agency (United States) 191, 371
see also Public housing
Housing market
see Blighted areas; Central Business District; House values; Housing overproduction; Housing vacancies; New York; Public housing; Real estate; Taxation and growth pattern: New York City
Housing overproduction
cause-of-depression theory 65–70
Housing vacancies
inter-area variations analysis
growth rate as reflected in new construction 90
measurable characteristics factor 85
relative importance of variables 88
see also Central Business District; Public housing
Housing values
see Blighted areas; Central Business District; Housing market; Pollution; Public housing; Real estate; Self-help housing
Houston ship canal
analysis of economic effect
consumption and investment effects 38–42
employment and income effects 33
tax contribution 37
see also Public utility economics; Transportation

I

Industrial location
restrictive practices in glass industry 96–100
see also Central Business District; Industrial subsidy; Location; Location patterns; Models programmed for industry location
Industrial subsidy
reappraisal of value of policy 25–31
see also Central Business District; Industrial locations

Institutional economics
see Economic theory; Logic of collective action
Interstate gas industry
regulatory policy factors
deliverability life
Federal Power Commission approach 91–95
length specified in contracts factor 91–93
see also Economic theory; New England; Oil industry; Rate regulation
Interstate sales contracts, gas industry 91–95
Intraurban spatial structure theory 108–112
see also Blighted areas; Central Business District; Central cities
Italy
mixed holdings in industry 116–120
see also Economic growth

L

Land reform
see Land tenure; Mexico; Puerto Rico
Land tenure
see Chile; Colombia; Economic growth; Italy; Mexico; Puerto Rico
Land use
maps as testing technique analysis 232
see also Central Business District; Land tenure; Puerto Rico
Location
standardized retail firm theory
agglomeration influence factor 321
evaluation of alternative locations 327
influence of location on demand 320
Location patterns
determinants in development of theory
basic model plan 227
external economies of agglomeration 229
historical influence 230
intermediate industries 230
natural resources factor 228
product differentiation 229
see also Central Business District; Location
Logic of collective action
a critique of modern economic theory
institutional approach defended 446
sociological approach compared 447
Louisiana
see Dual pricing; Oil industry; Petroleum leases

M

Mass transportation
metropolitan areas: public vs. private systems 361–367
Mexico
agricultural development: 1940–1960
labor inputs 397
output increase record 395
rate of growth of crop output 396
Rockefeller Foundation project 400
Minifundia
see Chile; Colombia
Models programmed for industry location 303–311
see also Industrial location
Mortgage lending
see Appraisal; Property damage; Urban blight

N

New England
critique of power economics 123–129
New York
bulk control and zoning
aesthetics and bulk controls 167
Equitable Building and zoning code 158
flat floor area ratio technique 163
regulation of bulk 159–167
rezoning and bulk regulation 169
suitability of controls 160–167
see also Real estate; Taxation and growth pattern: New York City

O

Oakland, California
public house project: case study 461–466
Oil industry
analysis of crude oil policy
imports policy 390
nuclear energy 389
rate of increase of capacity 386
Revenue Act of 1964 385
supply schedule 387
Ontario
urbanization and agricultural impact; case study 101–107
Outdoor recreation
see Recreation
Outer Continental Shelf Land Act, 1953 354
see also Oil industry

P

Parks and adjacent land values 357–360
Pennsylvania
analysis of small telephone companies 120–123
Permian Basin
see Dual pricing; Petroleum leasing
Petroleum leases
Louisiana outer shelf bids: an analysis
distribution of bids 354
United States Bureau of Land Management 304
see also Oil industry
Physical decentralization
prospect and values
dispersal theory 11
organic decentralization 13
technology and inventions for dwelling unit 21
see also Central Business District; Central cities; Urbanization
Planning
see City planning; Mass transportation; Oakland, California; Regional planning; Urban blight
Pollution
house values and air pollution: St. Louis, Missouri
statistical estimates of impact 187
theory of urban house values 182
see also Sedimentation
Property damage awards 346
see also Appraisal
Public funds
regional allocation criteria
demographic forecasting 424
framework for allocative decisions 422
shift analysis 428
Public housing
analysis of rental formula in federal projects 341–345
see also Oakland, California
Public utility economics
see Computer utility; Dual pricing; Insti-

tutional economics; Mass transportation; New England; Pennsylvania; Rate regulation; Transportation; Water
Puerto Rico
study of land reform in labor-surplus economy 451–456

R

Rate regulation
see Dual pricing; Economic theory; Interstate gas industry; New England; New York; Pennsylvania; Public utility economics; Real estate; Tax burden ratios; Transportation
Real estate
incidence of taxes under equilibrium factors
analysis of shifting process 173
city versus suburban rates 178
dynamic equilibrium 177
see also Bulk control and zoning: New York; Central Business District; Housing market; Pollution; Taxation and growth pattern: New York City
Recreation
economic aspects of public outdoor activity
alternate allocation schemes 77
financing problems 75
pricing process 78–81
pricing substitute estimate theory 112–116
rationale for public services 71–74
supply function 75
see also Parks and adjacent land values; Recreational development
Recreational development
conflicts in allocation of funds
benefit-cost analysis 459
multi-component product 457
proposed norms 458
Regional development
see Economic development; Public funds
Regional economic policy
analysis of a new approach
growth and congestion 377
neglected role of intermediate areas 380
overdevelopment factor 380
see also Public funds
Regional planning
see Economic growth; Industrial location; Location patterns; Public funds; Urbanization
Rockefeller Foundation project: Mexico 400

S

St. Louis, Missouri and air pollution 181–189
Sedimentation
resultant of rapid urbanization
effects on land and water areas 314
externality problem 313
offsite effects 313
Self-help housing
financing of incomplete houses 192
Housing and Urban Development Survey 191
locational data 194
see also Housing
Spread effect analysis
regional development problem
communications factor 434
transportation factor 438
Standard Metropolitan Statistical Areas and core city finance: analysis, New York City 202–211
see also Central cities
Sweden, experience in local industrial subsidy 254–262

T

Tax burden ratios
analysis of transportation modes
basic issues 46
neutrality of taxation concepts 44
see also Central cities; Regulating; Taxation and growth pattern: New York City; Taxation of inland waterway carriers; Taxation theory
Taxation and growth pattern: New York City
core city finances and suburban growth
factors influencing changes 206
regression analysis 209
variations in changes in public spending 203
see also Central Business District; Central cities; Taxation theory
Taxation of inland waterway carriers 240–243
Taxation theory
ability-to-pay principle analysis
discriminatory pricing by a regulated monopolist 219
relation to progressive taxation 221
tax burdens and value-of-service pricing 220
see also Taxation of inland waterway carriers
Transportation
see Highways; Houston ship canal; Mass transportation; Public utility economics; Tax burden ratios

U

Union of Socialist Soviet Republic
regional and economic planning 347–354
Urban blight
causes of blight 374
depreciation of property 372
historic perspective 369
impact of technological change 375
role of government 371
Urban research
critique of Burgess theory 336–341
see also Benefit taxation; Urban blight
Urbanization
standards for decentralization
civic versus urban development 3–5
decentralization and dispersal 11
megalopolic as a detriment 2–6
model community elements 4–7
organic decentralization 2–9
regional planning master plan 8
see also Central Business District; Intra-urban spatial theory: New York; Land use; Location; Ontario; Sedimentation

W

Water
role of local government in resource development
community project 330
cost comparisons 331
cost measurement 329
private project 330
Water resource projects and governmentally financed improvements 264–273
see also Water

Z

Zoning
see Central Business District; New York; Real estate
